● ADDITIONAL INFORMATION

PROJECTS

01/2023 – 06/2023

Plastic Waste Management Application Developed an Android app for plastic waste management for the residential area of Jamia Hamdard using Android Studio. Tracks donors, rewards star donors, and features login, advanced UI, navigation, and CRUD operations in SQLite database.

06/2022 – 12/2022

Gaming Website Led a group project to build a Tic-Tac-Toe gaming website using HTML, CSS, and JavaScript. Contributed to requirements analysis, SRS documentation, and test case development.

03/2022 – 05/2022

Bricker Game Developed Bricker game using Java Swing with 2D animation for bricks, ball, and slide. Score increments in top right corner while screen is in motion. User can replay after winning or losing.

07/2021 – 10/2021

Quiz Application Developed quiz app to test users' knowledge in various domains. Intents switch activity to domain-specific quiz, which generates a score and displays final results.
